

JANUARY 2009

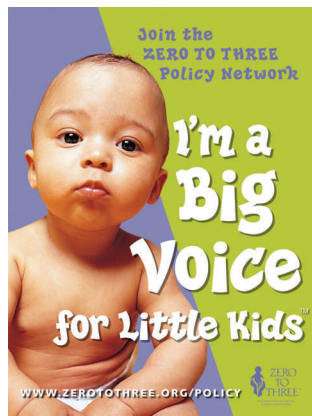

ZERO TO THREE Policy Network Advocacy Developmental Milestone Calendar

This month we honor the inauguration of the new President of the United States with our advocacy challenge.

During the month of January, we encourage you to identify the infant-toddler issue you care about most and send a message to incoming President, Barack Obama, about why he should focus on that issue during his presidency.

See page 2 for more details. ➡

JANUARY 2009 ADVOCACY DEVELOPMENTAL MILESTONE

Take Action Now!

This month we honor the inauguration of the new President of the United States with our advocacy challenge. During the month of January, we encourage you to identify the infant-toddler issue you care about most and send a message to incoming President, Barack Obama, about why he should focus on that issue during his presidency. Send your message now at: <http://change.gov/page/s/yourvision>.

Talking Points

What should you say to the new President about how public policy can support healthy infant-toddler development?

- ✦ You can use our [talking points](#) or create your own communication.
- ✦ We encourage you to personalize your communications by including information about your knowledge and experience working with infants, toddlers and their families.
- ✦ We also suggest you talk about specific policy recommendations to support families with young children. Read our [Presidential Agenda](#) for specific policies you can address with the President.

Remember, you have a role to play in the public policy process as a knowledgeable resource on infant-toddler issues. Take action now by introducing yourself to President-elect Obama and letting him know how he can make a difference in the lives of infants, toddlers and their families.

Tell Us About It!

We are eager to hear about your experiences advocating for babies and toddlers, so that we can continue to improve the support we give you as an advocate. After you have written and sent your message to the President, please tell us all about it by [clicking here](#).
