

## Numerical Codes for DC:0–5™

The *Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood* (DC:0–5™) was published by ZERO TO THREE in 2016. In this publication, disorders were named but not assigned numerical codes. As DC:0–5 began to be implemented worldwide, it became clear that having numerical codes for DC:0–5 disorders would facilitate inclusion of the DC:0–5 disorders in health care delivery systems and electronic health records. Having numerical codes for the DC:0–5 provides consistency among the various disorder lists and can also prevent misunderstanding and lack of clarity when translating diagnostic assessment reports into other languages.

The Diagnostic Classification Revision Task Force worked closely with representatives from the Nordic DC:0–5 Working Group to create the following numerical codes for each disorder in DC:0–5.
