

New Resources to Help Health Centers Strengthen Support For Families

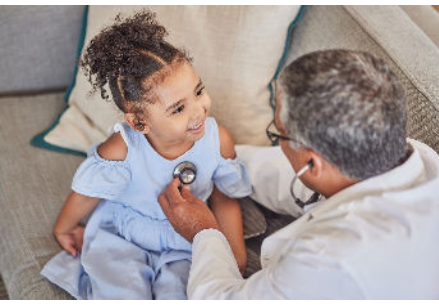

- Our [Change Package for Community Health Centers: Integrating the Early Childhood Development Continuum of Care](#) is a practical guide to help health centers improve how they support young children’s development. It offers clear ideas and sample tools that centers and other pediatric practices can try out and implement to improve care.
- These [new summary resources](#) capture key strategies and ideas from a six-month learning network series with health centers focused on improving developmental outcomes for children ages 0-5. Each session covered practical ways to engage and support families, build leadership, use consistent screening processes and share other ideas that pediatric care teams can use in their work.

Our Impact: Improving Children's Health and Family Well-being

Since 2022, our Center has worked with teams in 42 states, territories, Tribal Nations and communities to strengthen the systems that support young children and families.

Through the Transforming Pediatrics for Early Childhood (TPEC) program, eight Resource Hubs have supported 51 pediatric practices in delivering 27,000 developmental screenings and serving 68,000 families.

Together, these efforts turn evidence into action – helping families receive the services they need, when they need them.

Upcoming and Recent Events

- We are grateful to have been part of [Family Voices' virtual Leadership Conference](#)! Maggie Clark, our senior policy analyst, and Jen Cox, Kaliko Kaauamo and Leslie Garo from the Maui Implementation Site led a session on building family leadership.
- The [Smart Start Conference](#) is coming soon, May 4-7, in Greensboro, NC. If you’re attending, join our Center team – including Molly Leithold, Jackie Litzau and Erin Schreiber from the Washington Implementation Site – on May 5 to discuss systems transformation through community and state partnership.
- Registration is open for [ZERO TO THREE's 2026 LEARN Conference](#) from October 27-29 in Portland, OR. Join other early childhood professionals and walk away with fresh ideas and practical tools.

Additional Resources

Co-Design Framework for Authentic Family Experience

Assuring Better Child Health & Development’s (ABCD) [co-design framework](#) is featured in the Association of Maternal and Child Health Programs’ Innovation Hub. ABCD, a Colorado-based nonprofit, created this model to ensure that families shape the policies, practices and community systems that impact their lives.

Toolkit for Certified Community Behavioral Health Clinics

This [new toolkit](#) from ZERO TO THREE offers actionable guidance for Certified Community Behavioral Health Clinics looking to build or enhance trauma-responsive, relationship-centered services for infants, toddlers and families.

The [Early Childhood Developmental Health Systems \(ECDHS\): Evidence to Impact Center](#) works to build and improve systems that support young children, helping strengthen the health and well-being of babies and toddlers during their most important early years.

This program was made possible through the support of the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$4,740,000 with 0% financed from non-governmental sources. The contents are those of the authors and do not necessarily represent the official views of, nor an endorsement by, HRSA, HHS, or the U.S. Government.
